Welcome To Atti Bathrooms

Atti Bathrooms are an Irish based manufacturer and designer of bathroom products. Our product catalogue features a wide range of products to suit all styles of bathroom designs, whether it is a traditional or contemporary decor.

Our portfolio has been carefully designed and manufactured to the highest specifications using only the best quality raw materials, to produce an exceptional bathroom for you to enjoy for many years to come.

At Atti Bathrooms, our mission is to design and deliver high-quality bathroom products that combine timeless style with everyday functionality. We are committed to inspiring spaces that enhance comfort, reflect individuality, and stand the test of time.

With a focus on craftsmanship, innovation, and exceptional customer service, we aim to make beautifully designed bathrooms accessible to every home.

Inspired By You Designed By Atti

Plan with Purpose

Designing Your Perfect Bathroom

Whether you're creating a brand-new bathroom or refreshing an existing space, thoughtful planning is essential. From layout to lighting, every detail matters.

Use this guide to help navigate the key decisions that will shape a bathroom that's not only beautiful, but built to work for your lifestyle.

1. Define Your Daily Routine

● Think about how you use your bathroom

Is it a peaceful retreat for long evening soaks or a high-traffic zone for busy mornings? Understanding how your space is used helps determine everything from storage needs to layout. Family bathrooms, guest en-suites, and cloakrooms all require different considerations.

2. Maximise Your Space

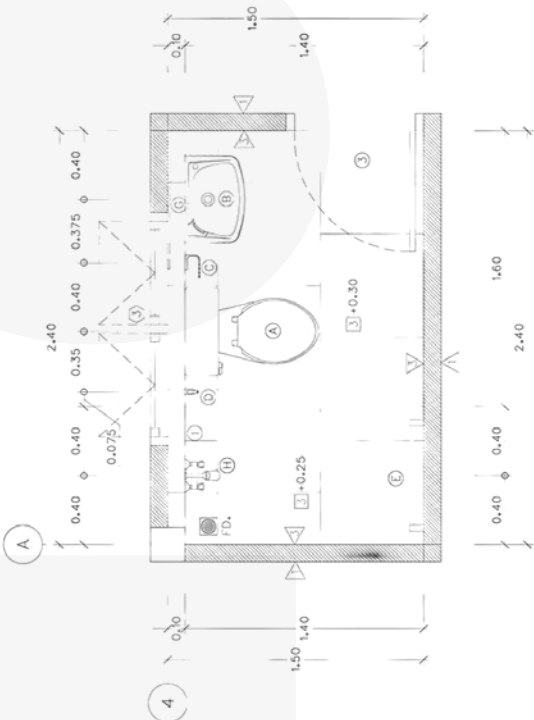

● Make the most of every inch.

Whether your bathroom is compact or expansive, smart layout choices are key. Wall-hung vanity units like our Grosvenor range can free up floor space and make cleaning easier, while tall storage units help reduce clutter without taking up too much room.

3. Choose a Cohesive Style

● Feels like a natural part of your home.

Do you lean toward classic elegance, clean minimalism, or bold colour statements? Choose a consistent colour palette, material finish, and style of fixtures to create a unified look. For example, brushed brass handles paired with soft green cabinetry add warmth and character.

4. Know Your Space

● Start with accurate measurements.

Take note of walls, windows, doors, and existing pipework. Understanding your layout helps determine what size vanity, bath, or shower fits comfortably and ensures you're not overcrowding the space.

5. Plan for the Future

● Think long-term, not just trends.

Your bathroom is an investment. Consider timeless features, quality materials, and layout flexibility. Will it adapt as your family grows? Will it remain accessible over time? Planning with longevity in mind ensures your bathroom continues to meet your needs for years to come.

Behind The Design

How We Curated The Collection

At **Atti Bathrooms**, creating our collection is more than just assembling beautiful products, it's about curating a thoughtful range that balances style, functionality, and longevity.

Every product we include is carefully selected to complement one another and to provide real solutions for modern living.

Our design process begins with insight and inspiration. We pay **close attention to emerging interior trends**, architectural influences, and customer preferences.

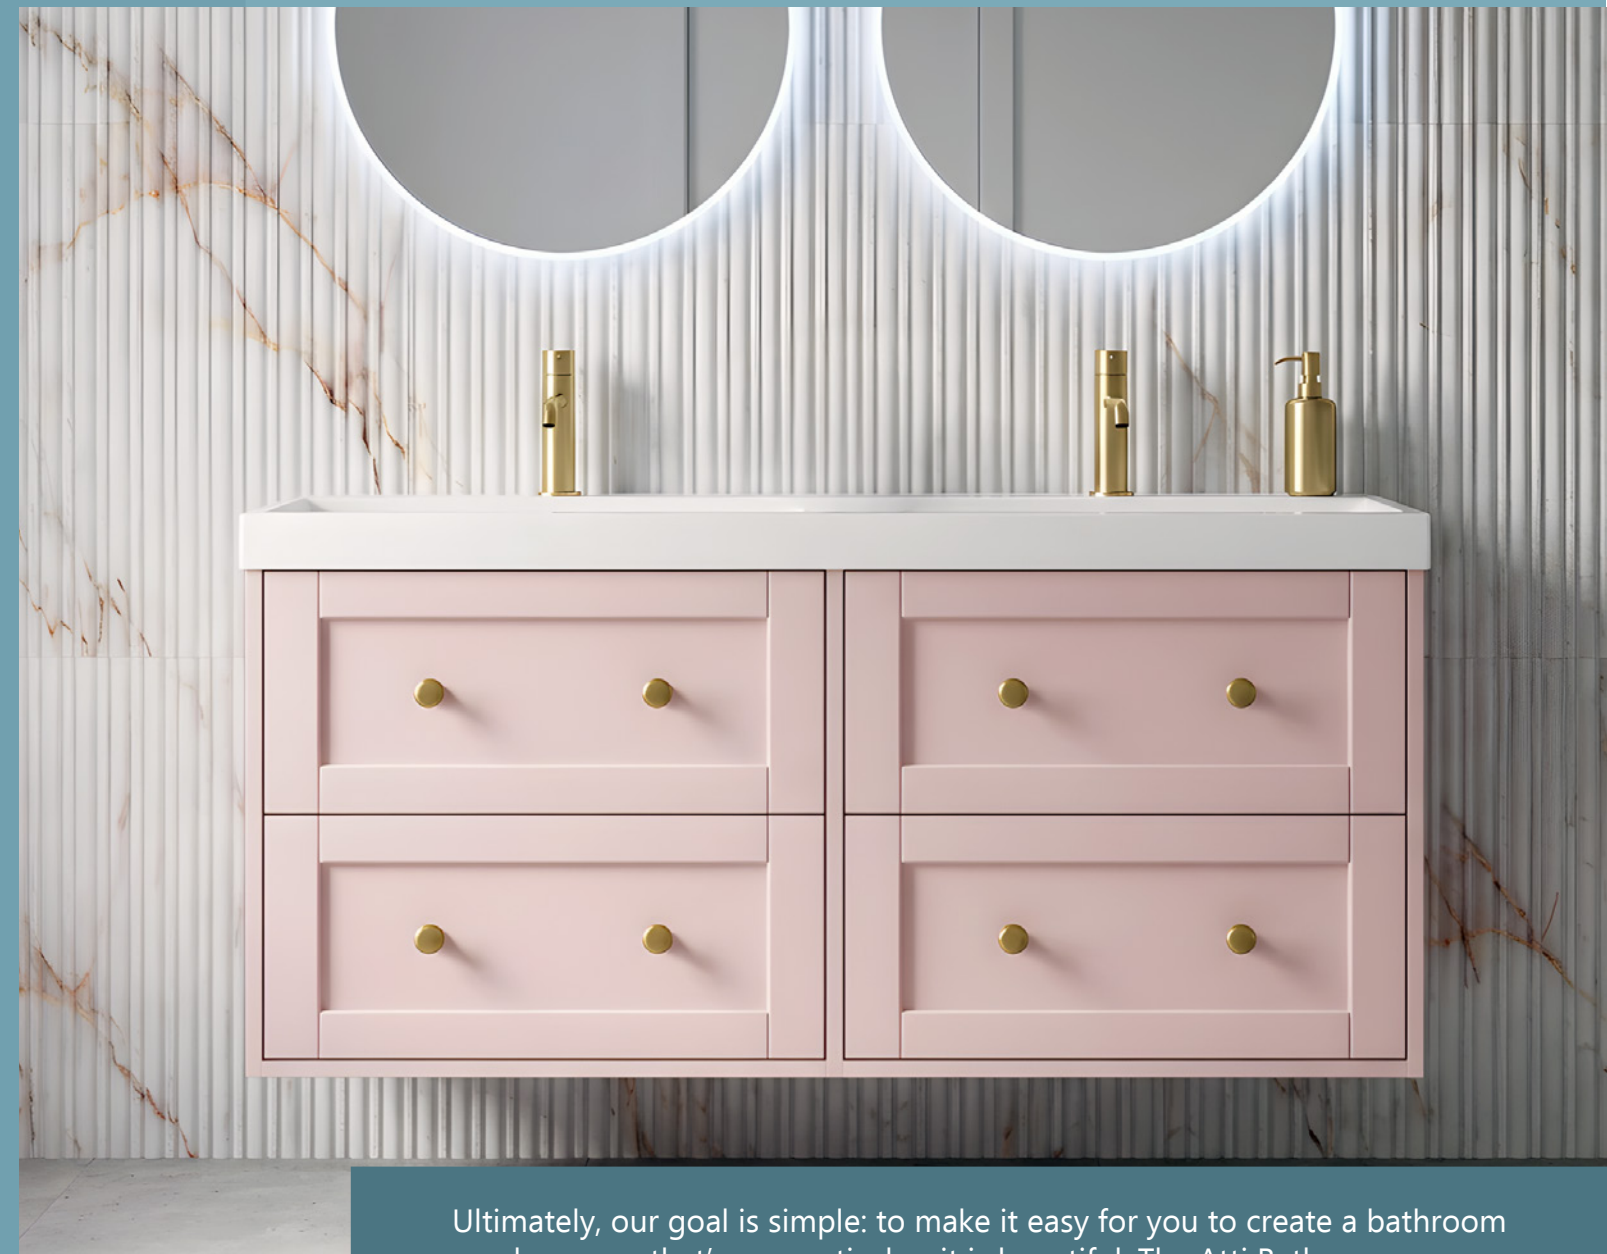

Whether it's the growing popularity of fluted textures, warm metallic finishes, or the demand for smart space-saving solutions, our team of designers and product specialists are always looking ahead, not just to follow trends, but to interpret them in ways that work in everyday homes.

Each product is chosen or developed with purpose. We think about how a vanity unit will pair with a mirror, which handle finish best complements a cabinet tone, and how different shapes and materials work together to create cohesive bathroom environments. From our signature furniture finishes to carefully selected brassware and accessories, everything is curated to ensure balance, harmony, and flexibility in design.

Quality is at the heart of our process. We only work with trusted manufacturing partners who share our values around craftsmanship and durability. Every detail, from soft-close drawers to the depth of a basin, is considered, tested, and refined to ensure it meets the high standards our customers expect.

We also believe in choice without complexity. Our collections are designed to be easily matched, whether you're selecting a single vanity or building a full bathroom scheme. With a palette of versatile colours, finish options, and sizes, our customers can confidently create a space that feels personal and perfectly planned.

Ultimately, our goal is simple: to make it easy for you to create a bathroom you love, one that's as practical as it is beautiful. The Atti Bathrooms collection is the result of many months of design thinking, hands-on testing, and attention to detail, so you can feel confident in every piece you choose.

Furniture

Whether your bathroom has a contemporary or traditional design, you'll find bathroom furniture that matches your decor perfectly. Choosing the correct style of furniture is an essential factor to getting a striking result. Atti Bathrooms manufacture a wide range of both floor & wall hung furniture to generate an eye catching effect in your bathroom.

Bathing

Whether your room is large or small, a bath has the ability to transform your entire bathroom making it a focal part of your design. From Luxury freestanding baths to versatile shower baths, at Atti, we have a wide choice available to suit a range of bathroom designs.

Cassie

Freestanding Bath

The Cassie Freestanding Bath from Atti is designed for those who want to combine striking style with ultimate comfort. With its beautifully sculpted curves and generous proportions, Cassie creates a true focal point in any bathroom, delivering both visual impact and a deeply relaxing bathing experience.

Crafted from high-quality acrylic, the Cassie bath offers excellent durability while being significantly lighter than traditional cast iron or steel alternatives. This makes it easier to install without compromising on strength or longevity. The smooth, warm-touch surface of the acrylic also ensures comfort and retains heat effectively, allowing you to enjoy long, indulgent soaks.

Spacious and inviting, the Cassie provides ample room to fully unwind, while its freestanding design allows for placement flexibility — whether you want a central statement piece or a feature positioned against a wall.

- > Cannot be drilled for tap holes.
- > Only suitable for freestanding or wall mounted taps.
- > All baths come with a clicker bath waste as standard.
- > Thin rim.
- > Suitable for use with a variety of tap finishes (chrome, brushed brass, matt black).
- > Stable, well-balanced structure for long-lasting performance
- > CE approved.

Oonsy

Freestanding Bath

The Ursula freestanding bath has been carefully designed to combine contemporary elegance with practical functionality, making it a standout feature in any bathroom. Its smooth, rounded form offers a welcoming and comfortable bathing space, while the proportions have been thoughtfully crafted to deliver both style and ease of use.

One of the key features of the Ursula is its integrated ledge, created specifically for mounting taps. This subtle addition provides convenience without interrupting the clean lines of the bath, offering a practical solution for modern living while maintaining a sleek aesthetic. Whether paired with chrome, brushed brass, or matt black fittings, the Ursula adapts beautifully to a range of interior styles.

- > Integrated ledge for convenient tap mounting.
- > Internal depth of 450mm.
- > Can be drilled for tap holes.
- > All baths come with a clicker bath waste as standard.
- > Suitable for use with a variety of tap finishes (chrome, brushed brass, matt black).
- > Stable, well-balanced structure for long-lasting performance

Cayden

Freestanding Bath

Create a true focal point in your bathroom with the luxurious Cayden Freestanding Bath from the Atti range. Combining traditional inspiration with a modern edge, the Cayden is designed for those who value both timeless elegance and everyday comfort. Its single-ended design provides the perfect reclining position at one end, allowing you to fully stretch out and enjoy a long, indulgent soak in complete relaxation.

Crafted with a deep and generous bathing area, the Cayden is ideal for unwinding at the end of a busy day. The bath's gentle sweeping profile and curvaceous form create a sense of fluidity and softness, making it as visually striking as it is comfortable. Its smooth lines ensure it complements both classic and contemporary bathroom styles.

- > Cannot be drilled for tap holes.
- > Only suitable for freestanding or wall mounted taps.
- > All baths come with a clicker bath waste as standard.

Bronagh

Freestanding Bath

The Bronagh Freestanding Bath is designed for those who want to combine luxury, comfort, and striking style in one elegant piece. With its beautifully balanced double-ended design, the Bronagh offers a comfortable reclined bathing position at either end, making it perfect for both solo relaxation and shared bathing. The gently curved lines on both sides create a sense of symmetry and softness.

Crafted from high-quality acrylic, the Bronagh bath is lighter and easier to install than traditional cast iron or steel baths, yet retains excellent durability and heat retaining properties. This ensures a consistently warm, indulgent soak, allowing you to unwind in total comfort.

- > Cannot be drilled for tap holes.
- > Only suitable for freestanding or wall mounted taps.
- > All baths come with a clicker bath waste as standard.
- > Thin rim.
- > Modern double ended design.
- > Suitable for use with a variety of tap finishes (chrome, brushed brass, matt black).

Kaila

Freestanding Bath

The Kaila Freestanding Bath is a striking example of contemporary bathroom design, combining modern elegance with everyday practicality. Defined by its smooth, rounded corners and clean silhouette, Kaila creates a sleek, sculptural presence that enhances both minimalist and more traditional interiors. Its refined form allows it to integrate effortlessly into any bathroom setting, making it a versatile choice for homeowners who value both style and function.

One of the standout features of the Kaila is its discreet integrated ledge, carefully designed for mounting taps. This thoughtful detail provides convenience without compromising the bath's fluid lines, ensuring a balance of functionality and sophistication. Whether paired with polished chrome, brushed brass, or matt black fittings, the Kaila adapts beautifully to your chosen design scheme.

- > Can be drilled for tap holes.
- > All baths come with a clicker bath waste as standard.
- > Thin rim.
- > Tap ledge 110mm.

Alanna

Freestanding Bath

The Alanna 1700mm Back to Wall Double Ended Bath is the perfect combination of modern functionality and elegant design. Cleverly crafted to provide the indulgence of a freestanding bath while making the most of your available space, this innovative design sits neatly against the wall, creating the look and feel of a freestanding feature without compromising on room layout.

With its double-ended design, the Alanna offers a comfortable bathing position at either end, making it ideal for shared use or for those who simply want flexibility and relaxation. The generous 1700mm size ensures plenty of room to stretch out, while the smooth, gently curved lines add comfort and visual appeal.

- > Can be drilled for tap holes.
- > Back to wall design.
- > All baths come with a clicker bath waste as standard.

Grace

Freestanding Bath

The Grace 'D' Shape Back to Wall Bath has been thoughtfully designed to bring both elegance and practicality into your bathroom. With its unique shape, this bath creates an instant focal point, sitting flush against the wall while presenting a beautifully curved front that softens the overall look of your space. Its clean, contemporary lines ensure it complements a wide variety of bathroom styles, from minimalist modern to timeless classic.

The double-ended design allows you to recline and bathe comfortably at either end, making it a versatile choice for both solo relaxation and shared bathing. Its generous proportions and rounded edges provide exceptional comfort, while the sleek profile ensures your bathroom retains a feeling of openness and space.

- > Can be drilled for tap holes.
- > All baths come with a clicker bath waste as standard.

Claire

Freestanding Bath

The Claire Freestanding Back to Wall Corner Bath is a contemporary, space-saving design that brings both practicality and elegance to modern bathrooms. As part of our carefully curated bath collection, which features some of the most desirable styles available today, the Claire stands out for its ability to combine luxury bathing with smart use of space.

Designed to fit neatly into a corner, this innovative bath is perfect for homes where space is at a premium but comfort and style are still a priority. Its back to wall layout ensures that it maximises floor space, while the freestanding design and soft, modern lines create a statement feature within your bathroom. The corner fit is ideal for family bathrooms, en-suites, or smaller spaces, offering a clever solution without compromising on aesthetics.

- > Can be drilled for tap holes.
- > Back to wall, corner design.
- > All baths come with a clicker bath waste as standard.
- > Available in right & left hand options.
- > Modern double ended design.
- > Suitable for use with a variety of tap finishes (chrome, brushed brass, matt black).

Orla

Freestanding Bath

The Orla Freestanding Bath is a true statement of luxury, blending timeless Victorian inspiration with the clean sophistication of modern design. Its double ended, gently curved profile pays homage to classic period style, while subtle contemporary refinements ensure it fits seamlessly into today's homes. The result is a bath that captures the elegance of traditional design but with a fresh, updated twist.

Carefully engineered for comfort as well as beauty, the Orla features precisely sloped curves at either end, offering excellent back support whether you prefer to recline alone or enjoy the flexibility of shared bathing. The generous internal depth allows for a long, indulgent soak, combining comfort with a sense of true relaxation.

- > Cannot be drilled for tap holes.
- > Only suitable for freestanding or wall mounted taps.
- > All baths come with a clicker bath waste as standard.
- > Traditional double ended design.
- > Suitable for use with a variety of tap finishes (chrome, brushed brass, matt black).

Toilets

Introducing our comprehensive toilet collection, where form, function, and style unite. Discover a range of meticulously designed toilets to suit every bathroom style and preference. From close coupled toilets for a traditional look to wall-hung toilets for a sleek and modern vibe, our collection offers versatile options. Complete your installation with our sturdy frames and cisterns that provide reliable support. Enhance the visual appeal with our elegant flushplates available in a variety of finishes.

Series 200

Toilet Range

The Series 200 Toilet is one of the most in-demand designs in our range, offering a perfect balance of modern aesthetics and practical functionality. With its clean, minimalist lines and contemporary form, it brings a refined look to any bathroom while maximising both comfort and convenience.

The wall hung version is a standout choice for those seeking a sleek, space-saving solution. Its floating design creates a modern, open feel, while the smooth sides and hidden fixings remove awkward dust traps, making it easier to clean and maintain. This not only enhances hygiene but also ensures a flawless, uncluttered appearance.

For those who prefer a more traditional installation, the Series 200 is also available in a close coupled version, providing the same stylish design and practicality in a floor-standing format. Both options are crafted to the highest standards, ensuring long-lasting performance and durability.

- > Includes soft close, quick release seat.
- > Rimless WC.
- > White & matt black options available.
- > CE approved.

Toilets

Basins

Our range of counter top, underslung & pedestal sinks are a must-have when you want that high-end, designer bathroom style. From elegant angular designs to beautiful curved and small counter top basins, we offer the variety you need to get the look you want.

Countertop

Basins

Our collection of countertop basins brings contemporary style and versatility to any bathroom. Available in a wide variety of shapes, sizes, and colours, these basins are designed to sit neatly on top of a vanity unit or worktop, creating a striking focal point while offering everyday practicality. From smooth round and oval forms to bold square, rectangular, and even geometric designs, there is a style to suit every interior.

Choose from classic gloss white for a timeless look, or explore modern finishes such as matt black, brushed metallics, or soft neutral tones to make a bold design statement. With options ranging from compact basins ideal for cloakrooms to generously sized models perfect for larger bathrooms, our countertop basins combine functionality with striking design.

Pedestal

Basins

Our pedestal basins combine timeless style with everyday practicality, making them a popular choice for a wide range of bathrooms. Available in both full pedestal and semi pedestal options, they are designed to provide a neat, streamlined appearance while concealing pipework for a cleaner finish.

The full pedestal basins offer a classic look, extending all the way to the floor for a traditional yet elegant feel, while the semi pedestal versions are mounted directly to the wall, leaving space underneath for a more modern, open look that is perfect for smaller bathrooms or en-suites.

Crafted from high-quality ceramic with a smooth, easy to clean surface, our pedestal basins are durable, practical, and designed to complement a wide range of bathroom styles.

Shower Enclosures

Quadrant | Pivot | Sliding | Bifold | Corner | Wetroom Screens

Quadrant

Shower Doors

The Atti Quadrant Enclosure combines strength, style, and practicality to create the ideal showering solution for a wide range of bathroom spaces. Manufactured with 6mm toughened safety glass, it offers superb durability and peace of mind, while the smooth double rollers ensure the doors glide effortlessly for easy opening and closing. A secure magnetic seal keeps the doors firmly shut, providing a watertight finish and helping to keep your bathroom dry and comfortable.

Thanks to its curved quadrant shape, this enclosure is also an excellent space-saving solution. It makes the most of corner spaces in smaller bathrooms, while in larger rooms it allows you to enjoy the benefit of both a separate bath and a dedicated shower. The result is a versatile, stylish, and highly functional choice for any home.

Pivot

Shower Doors

The Pivot Door Enclosure is a stylish and practical choice for any modern bathroom, combining a sleek design with reliable functionality. Its smooth-opening pivot door provides easy access to your shower space, while the aluminium frame with a polished silver effect finish adds a touch of elegance that blends seamlessly with a wide range of bathroom décors.

Crafted with 6mm thermally toughened safety glass, this enclosure offers the ideal balance between strength and usability. The glass provides a sturdy, reassuring feel while remaining light enough to operate smoothly on its hinges, ensuring long-lasting performance and everyday convenience.

Perfect for both en-suites and family bathrooms, the Pivot Door Enclosure offers a clean, minimalist look while delivering durability, safety, and comfort. Designed to maximise practicality without compromising on style.

- Key Features:**
- > 1900mm High.
 - > Universally Handed.
 - > 6mm Clear Toughened Safety Glass.
 - > Stainless steel handles.
 - > 40mm Adjustable Wall Profiles.
 - > 6 sizes to choose from.
 - > Easy clean bottom rollers.
 - > Roller presinstalled.

For side panels, please view page 95.

Sliding

Shower Doors

The Atti Sliding Shower Enclosure offers a clean, contemporary design that complements bathrooms of all styles, from modern minimalism to more traditional spaces. Built with 6mm thick toughened safety glass, it provides excellent strength and durability, while the polished aluminium profile and solid brass handle add a refined finish that enhances the overall look of your bathroom.

The sliding door mechanism makes this enclosure a perfect choice for bathrooms where space is at a premium. Unlike outward-opening doors, it saves valuable room and offers a smooth, effortless glide for ease of use. The design is also universally handed, meaning it can be installed to open from either the left or right side, giving you complete flexibility during installation.

Blending style, practicality, and convenience, the Atti Sliding Shower Enclosure is a versatile and reliable choice for any bathroom

- Key Features:**
- > 1900mm High.
 - > Universally Handed.
 - > 6mm Clear Toughened Safety Glass.

Bifold

Shower Doors

The Atti Bifold Shower Door combines clever space-saving functionality with a sleek, modern design. The impressive silver frame, with its smooth lines and minimal detailing, creates a clean and contemporary look that works beautifully in a wide variety of bathroom styles. Elegant yet practical, it's an excellent choice for adding a touch of luxury to your showering space without compromising on functionality.

Crafted with 6mm toughened safety glass, the bifold door offers both strength and durability, ensuring long-lasting performance while maintaining a light, smooth folding action. The door folds neatly inwards, making it ideal for smaller bathrooms or en-suites where space is limited, while still providing a comfortable and accessible entry.

With 60mm of adjustment, the Atti Bifold Shower Door is designed for easy fitting and flexibility, helping to achieve the perfect installation.

- Key Features:**
- > 1900mm High.
 - > Universally Handed.
 - > 6mm Clear Toughened Safety Glass.
 - > Stainless steel handles.
 - > 60mm Adjustable Wall Profiles.
 - > 4 sizes to choose from.

Corner

Shower Doors

With their substantial frame and clear glass panels, our Corner Entry Shower Doors combine durability with timeless style, making them an excellent choice for compact bathrooms and en-suites. Designed and crafted to a high standard, these doors provide a reliable, long lasting solution that doesn't compromise on elegance.

The inward-folding design makes the most of limited space, allowing for easy access while ensuring the doors remain practical in smaller shower cubicles. This clever configuration is ideal where outward-opening doors may not be suitable, offering both convenience and comfort.

Attention to detail is evident in every aspect of the design. From the discreet fixings that maintain a clean and uncluttered look, to the sleek chrome handles that add a touch of sophistication, these doors are built to enhance the overall feel of your bathroom.

- Key Features:**
- > 1900mm High.
 - > Universally Handed.

Wetroom Screens

A wet room is a stylish and practical alternative to a traditional bathroom layout, offering a sense of space and freedom. By removing the need for a bath, you can create an open-plan showering area that maximises floor space and gives your bathroom a sleek, modern feel. Wet rooms are particularly popular in contemporary homes, en-suites, and smaller bathrooms, but they can also make a striking statement in larger spaces.

Our wet room panels are designed with a contemporary frameless look, creating clean lines and a minimalist finish that blends seamlessly with any bathroom décor. Manufactured from 8mm toughened safety glass, they provide excellent durability and reliable protection against splashes, while still maintaining a light and open feel within the room.

Key Features:

- > 2000mm High.
- > Universally Handed
- > 8mm Clear Toughened Safety Glass.
- > Easy Clean Glass Protection.
- > 900mm arm. 1200mm optional arm.
- > 38mm Adjustable Wall Profiles.

Fluted Wetroom Screens

Our fluted wet room screens feature a contemporary frameless design in 8mm toughened safety glass. The fluted texture adds subtle privacy, softens sightlines, and reduces the appearance of water marks, while still allowing light to flow through the space. Panels provide full splash protection and a refined, architectural finish that works in both small en-suites and larger family bathrooms.

For peace of mind, every panel conforms to relevant European safety standards and includes a specialist easy-clean coating to help resist limescale and soap residue. With minimal hardware and simple lines, these screens are easy to maintain and straightforward to integrate with level-access floors or shower trays, delivering a practical, modern wet room solution.

Key Features:

- > 1950mm High.
- > Universally Handed
- > 8mm Clear Toughened Safety Glass.
- > Easy Clean Glass Protection.
- > 900mm arm. 1200mm optional arm.
- > 20mm Adjustable Wall Profiles.
- > 1200mm overhead support bar.
- > Optional 300mm return panel available.

Shower Trays

Slimline & Slate

Purestone

Slimline Shower Trays

Modern manufacturing processes and stone resin materials have allowed for increasingly thinner shower trays in recent years, and our selection of high quality Purestone shower trays gives you the opportunity to create a modern, minimalist shower enclosure.

- Standing only 35mm in height, these low profile shower trays are available in square, rectangular & quadrant versions.
- > Slimline 45mm height.
 - > ABS capped stone resin.
 - > Optional riser leg and panel pack.
 - > CE approved.

Slate

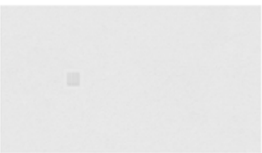

Shower Trays

With its incredible slate finish, this premium shower tray from Atti Bathrooms is the on-trend choice for your contemporary bathroom, wetroom or ensuite. Suitable for fitting either on or flush with the floor, this shower tray is a wonderfully modern alternative to the standard white trays of today.

Standing only 30mm in height, these low profile shower trays are available in square rectangular & quadrant versions.

- > Available in white, anthracite and black.
- > 30mm in height (recessable).
- > Integrated waste. Fast flow waste included.
- > Slate surface antislip.
- > CE approved.

Warranties

For the durations specified, in each case beginning with the date of purchase, we warrant that all products we provide will be of satisfactory quality and will substantially comply with their applicable specifications. This warranty is subject to the conditions outlined below, those of our return policy, and those of our general terms. All of our shower doors and bath screens meet EN12150 requirements and have CE approval.

Registering Products

To ensure you receive the full benefit of your purchase, many of our products come with an extended guarantee when registered online. Registering is quick and simple – just visit our website and complete the product registration form. Doing so activates your extended cover, giving you additional peace of mind and the confidence that your Atti Bathrooms products are fully protected for the years ahead.

Register your product online today - www.attibathrooms.com/product-warranties

Terms & Conditions of Guarantees

A full breakdown of Terms & Conditions of Guarantees can be found online at: www.attibathrooms.com/warranty

Product colours may vary. All measurements are in millimetres and together with photographs are for guidance only.

We reserve the right to change our specifications without prior notice. Errors and omissions are excepted.

Website

For more product details, technical information, and a full gallery of imagery, we invite you to visit our website. There you'll find everything you need to help plan your bathroom, including specifications, dimensions, and additional resources to support your project.

Pricing

All prices shown in this brochure are inclusive of VAT, giving you clear and transparent pricing with no hidden costs. What you see is the total price you pay, making it easier to plan and budget for your new bathroom.

Prodcrt Specification

Full product specifications, including technical data and detailed drawings, can be viewed on our website to assist with planning and installation. For added convenience, individual product data sheets are also available to download, providing all the essential information you need in one place.

Developments

At Atti Bathrooms, we are proud to work alongside housing and site developments, supplying high quality bathroom products with long-lasting performance. Our ranges are carefully selected to suit a variety of interiors, ensuring that every home is fitted with products that enhance both comfort and value.

For developments, dedicated product brochures are available, showcasing the items included within each package. These brochures can be easily viewed and downloaded from our website.
